CAT REMAN: THE SMART WAY TO SAVE ON REPAIR COSTS

When your Cat Truck Engine runs with a Cat Reman Turbo, you don't just save money. You also get exactly what you need for the next million miles on the road — all at a fraction of the cost of new.

» **Same-as-new quality**: Cat Reman Turbos undergo the same validation and testing as new turbos.

» **Better-than-original performance:** Because Cat Reman Turbos receive the latest engineering updates, performance (including fuel economy) may exceed that of your original turbo.

» **Industry's best warranty:** Cat Reman Turbos come with an unlimited-mileage, 12-month standard warranty that covers contingent damage. (In other words, if your turbo fails and takes out the engine, it's covered.) You also have the option to add extended coverage up to 48 months.

» **Unmatched support:** The authorized Cat dealer network is the largest in North America, and Cat Reman Turbos get the same support as new turbos. Your dealer has the parts, service and expertise to keep your truck on the road and running strong.
